

# Environmental Decon Trailers

Decontamination

HazMat

Rehab Units

With more than 20 years experience, ACSI's environmental decon trailers bring you and your employees the best in safety, cleanliness, hygiene, and comfort. ACSI's durable construction has been proven in the harshest work and weather environments. Our decon trailers come in standard two shower, four shower, and eight shower configurations equipped with water heaters, lead and asbestos filtration equipment, negative air filtration, and a host of other amenities ready for use on your job site. Custom sizes and configurations are available, please ask your ACSI representative for details.
