### Stored Dimensions:

**PC-5:** L 60" x W 24" x H 6"

**PC-7:** L 84" x W 24" x H 6"

### Weight:

**PC-5:** Approx. 50 lbs

**PC-7:** Approx. 60 lbs

## About the Portable Patient Conveyor

PC-5 & PC-7 is ACSI's newest portable quick deployment non-ambulatory modular conveyor system.

They can be assembled in under a minute by simply spreading its two heavy-duty "H" frame legs and locking the angle struts.

PC-5 & PC-7 units are easily interlinked to form continuous conveyor lines and their ball-bearing assembly can carry over 400 lbs of weight per section. The convenient integral spring-loaded carrying handle makes the unit easy to transport by a single operator.
