

Dimensions:

37 1/8" x 26 1/2" x 31 1/4"

Body:

0.063 aluminum

Power Supply:

90 PSI – 65 SCFM Compressed Air

Weight:

135 lbs.

Motor:

1.8 HP

Air Flow:

1975 cfm / 1000 cfm

Features & Benefits:

- Non- electric
- Heavy-Duty aluminum / lightweight, durable, rust-resistant
- Variable Speeds / variable air control
- 1/2" Quick Disconnect, Air Inlet
- Regulator with pressure gauge / controls air flow
- Inline inlet air filter / provides motor protection
- Inline inlet lubricator / provides motor lubrication
- HEPA Filter is locked in to assure a positive seal around the HEPA filter
- (4) heavy-duty 4" swivel casters, two with locks
- (4) rugged carrying handles to provide easy portability
